The Nets4cars Nets4trains Nets4aircraft workshop series has been held annually since 2010. The workshop provides a forum for researchers and practitioners to share their latest work on the use of network technologies to improve the safety, efficiency, and reliability of transportation systems.

The 15th International Workshop Nets4cars Nets4trains Nets4aircraft will feature a keynote speech by Dr. Robert W. Heath Jr., the Gordon and Betty Moore Professor of Electrical Engineering at the University of Texas at Austin. Dr. Heath is a world-renowned expert in the field of wireless communications. He has made significant contributions to the development of new technologies for 5G and beyond.

In addition to the keynote speech, the workshop will feature a number of technical sessions on the following topics:

- Network architectures for cars, trains, and aircraft
- Vehicular communications
- Safety and security in transportation networks
- Data analytics for transportation systems
- Applications of artificial intelligence in transportation

The workshop will also include a number of demonstrations and exhibits from leading companies in the field of network technologies for transportation.

The 15th International Workshop Nets4cars Nets4trains Nets4aircraft is a must-attend event for anyone interested in the latest advances in the field of network technologies for cars, trains, and aircraft. The workshop will provide a unique opportunity to learn from leading experts in the field and to network with other researchers and practitioners.

Important Dates

- **Paper submission deadline:** March 15, 2024

- **Notification of acceptance:** April 15, 2024
- **Camera-ready paper submission deadline:** May 15, 2024
- **Workshop dates:** June 25-27, 2024

Contact

For more information, please contact the Nets4cars Nets4trains Nets4aircraft Organizing Committee at nets4cars-nets4trains-nets4aircraft@inria.fr.

Venue

The workshop will be held at the Inria Bordeaux Sud-Ouest research center in Bordeaux, France.

Accommodation

A number of hotels are located near the workshop venue. Attendees are encouraged to book their accommodations early.

Transportation

Bordeaux is easily accessible by air, rail, and road. The city is served by the Bordeaux-Mérignac Airport (BOD), which is located about 10 kilometers from the city center.

Visa

Citizens of most countries do not need a visa to enter France for a stay of up to 90 days. However, citizens of some countries may need to obtain a visa in advance. Please check the French embassy or consulate in your country for more information.
