The Voyagers and Beyond

From the Moon, Cameron follows the Voyager spacecraft as they journey into the outer solar system and beyond. He discusses the scientific discoveries made by the Voyagers, as well as the philosophical questions they raised about our place in the universe.

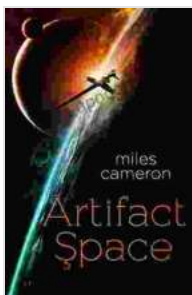

The Cosmic Sublime

Throughout the book, Cameron argues that the cosmos is a source of awe and wonder, and that artifacts such as the pyramids and the Voyagers help us to connect with the cosmic sublime. He also explores the role of art and imagination in helping us to understand the cosmos.

Artifact Space is a beautifully written and thought-provoking book that will appeal to anyone interested in science, space exploration, or the human imagination.
