Bolton's book is a bombshell. He reveals that Trump was often uninformed and impulsive, and that he made decisions based on personal whims rather than sound policy. Bolton also paints a damning picture of Trump's relationships with foreign leaders, including Russian President Vladimir Putin and North Korean dictator Kim Jong-un. Bolton alleges that Trump was willing to betray American interests in Free Download to curry favor with these dictators.

*Blind Ambition* is a scathing indictment of the Trump presidency. Bolton's revelations are sure to fuel the impeachment inquiry and could potentially

lead to Trump's removal from office. But even if Trump survives the impeachment process, *Blind Ambition* will serve as a permanent record of his disastrous presidency.

### **Bolton's Account of the Trump-Putin Relationship**

One of the most shocking revelations in *Blind Ambition* is Bolton's account of the Trump-Putin relationship. Bolton alleges that Trump was so eager to build a personal relationship with Putin that he was willing to overlook the Russian leader's hostile actions towards the United States. Bolton claims that Trump repeatedly praised Putin in private conversations and that he even offered to withdraw US troops from Ukraine in exchange for Putin's help in the 2020 election.

Bolton's allegations are deeply troubling. They suggest that Trump was willing to put his personal interests ahead of the national security of the United States. If Bolton's account is accurate, then Trump may have committed impeachable offenses.

### **Bolton's Assessment of Trump's Foreign Policy**

Bolton's book also provides a scathing assessment of Trump's foreign policy. Bolton argues that Trump's "America First" agenda has alienated allies and emboldened enemies. He claims that Trump's decision to withdraw the United States from the Iran nuclear deal and the Paris climate agreement has weakened America's standing in the world.

Bolton is particularly critical of Trump's handling of North Korea. He alleges that Trump's personal relationship with Kim Jong-un has led him to make dangerous concessions. Bolton claims that Trump has given up too much

in exchange for too little and that North Korea is still a major threat to the United States.

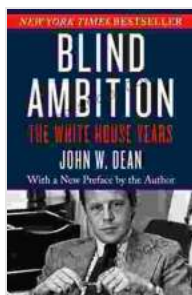

## The Chaos Within the White House

In addition to his criticisms of Trump's foreign policy, Bolton also provides a vivid account of the chaos within the White House. He describes a dysfunctional administration where there was no clear chain of command and where decisions were often made on the fly.

Bolton claims that Trump was often unaware of basic facts and that he relied on his gut instincts rather than sound advice. He also alleges that Trump was easily manipulated by outside advisors and that he often made decisions that were not in the best interests of the United States.
