Dr. Carter traces the evolution of gun laws in the United States, highlighting the role of race and racism in their development. From the era of slavery to the modern-day era of mass shootings, she analyzes how laws and policies have been used to control, suppress, and disenfranchise communities of color.

She also examines the interactions between law enforcement and communities of color, exploring the systemic biases and racial profiling that have led to disproportionate arrests, excessive force, and fatal encounters. Dr. Carter argues that these issues cannot be separated from the broader context of race and power in America.

Through rigorous research and compelling narratives, 'Guns, Law Enforcement, and the Politics of Race' unpacks the complex interplay of these forces. It offers a critical analysis of the ways in which race has shaped gun laws, law enforcement practices, and the experiences of communities of color. This book is a must-read for anyone seeking a deeper understanding of these pressing issues.
