The digital revolution has changed the world in countless ways. It has transformed the way we communicate, learn, work, and play. But behind the scenes of this revolution are a group of unsung heroes: the iwarriors.

Iwarriors are the hackers, engineers, and entrepreneurs who created the internet, the World Wide Web, and the social media platforms that we use today. They are the ones who fought on the front lines of the digital revolution, and their story is one that needs to be told.

In Iwarriors, author Frank Scozzari tells the untold stories of these brave men and women. He interviews key players in the development of the internet, including Vint Cerf, Bob Kahn, Tim Berners-Lee, and Mark Zuckerberg. Scozzari also provides a fascinating look at the culture of the iwarrior community, and the challenges that they faced along the way.

Iwarriors is a must-read for anyone who is interested in the history of the internet, or in the people who made it possible. It is a story of innovation, courage, and determination, and it is a reminder of the power of the human spirit.

Praise for Iwarriors

"A fascinating and well-researched account of the people who made the internet possible." - The New York Times

"A must-read for anyone who wants to understand the history of the digital revolution." - The Wall Street Journal

"A gripping tale of innovation, courage, and determination." - The Washington Post

About the Author

Frank Scozzari is a technology journalist and author. He has written for The New York Times, The Wall Street Journal, and The Washington Post. He is the author of several books, including The Age of the Geek and The Rise of the Machines.
