In his powerful and moving memoir, *Medic Part Iraq*, Yancy Caruthers offers a deeply personal and unforgettable account of his experiences as a combat medic during the Iraq War.

Caruthers, a former Marine, was deployed to Iraq in 2003. He served as a medic with the 1st Battalion, 5th Marine Regiment, and was responsible for providing medical care to his fellow Marines on the front lines.

Medic Part Iraq is a raw and honest account of the brutality of war. Caruthers describes in vivid detail the horrors he witnessed and the challenges he faced as a medic. He also shares the stories of the Marines he served with, men who fought bravely and sacrificed greatly.

But *Medic Part Iraq* is more than just a war story. It is also a story of resilience, hope, and healing. Caruthers shares how he coped with the

trauma of war and the challenges of returning home to a world that seemed foreign to him.

Caruthers' writing is both gripping and deeply moving. He has a gift for storytelling, and his ability to convey the emotions and experiences of war is truly remarkable.

Medic Part Iraq is a must-read for anyone interested in the Iraq War, military history, or the human cost of war. It is a powerful and unforgettable book that will stay with readers long after they finish reading it.
