Gallaudet University, a renowned institution for deaf and hard of hearing students, has been rocked by a shocking new book that exposes a litany of abuses and misconduct that have been allowed to fester for years.

The book, titled 'The Shocking Real Standards And Practices At Gallaudet University,' is written by a former Gallaudet employee who witnessed firsthand the appalling conditions at the school. The author, who has chosen to remain anonymous for fear of retaliation, paints a damning picture of a university that is failing its students.

The book details a wide range of abuses, including:

- Physical and emotional abuse of students by staff members

- Sexual harassment and assault of students by staff members
- A lack of transparency and accountability in the university's administration
- A culture of fear and intimidation that prevents students from speaking out about the abuses they have experienced

The book also reveals that Gallaudet University has been aware of these abuses for years, but has done little to address them. In fact, the university has often gone to great lengths to cover up the abuses and protect the perpetrators.

The book has sent shockwaves through the deaf community and has led to calls for an independent investigation into Gallaudet University. The university has denied the allegations in the book, but the evidence presented by the author is overwhelming.

'The Shocking Real Standards And Practices At Gallaudet University' is a must-read for anyone who cares about the welfare of deaf and hard of hearing students. The book exposes the dark underbelly of a university that has been held up as a model for inclusion and accessibility.

It is time for Gallaudet University to be held accountable for its failures. The students deserve better than the appalling conditions that they have been subjected to for years.

The Deaf Community Deserves Better

Gallaudet University is a unique institution that plays a vital role in the deaf community. It is the only university in the world where deaf students can

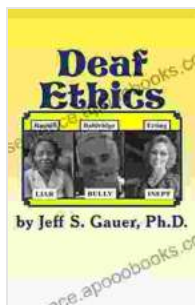

learn in their own language and culture.

However, the recent revelations about the abuses at Gallaudet University have shattered the trust of the deaf community. The university has betrayed the deaf students who have placed their trust in it.

The deaf community deserves better than Gallaudet University. The students deserve to be treated with respect and dignity. They deserve to learn in a safe and supportive environment.

It is time for Gallaudet University to change. The university must take immediate steps to address the abuses that have been exposed in 'The Shocking Real Standards And Practices At Gallaudet University.' The university must also work to rebuild the trust of the deaf community.

The deaf community deserves better. Gallaudet University must do better.
