Led by President William Black, a self-made millionaire and visionary leader, the Black Family arrived in Washington, D.C. in 1913, amidst a climate of racial prejudice and discrimination.

Despite the challenges they faced, the Black family refused to be defined by their race. They resided in the White House with dignity and grace, leaving an enduring legacy that has been largely overlooked.

A Hidden Legacy

For decades, the story of the Black Family remained hidden in the shadows of history. Their contributions were deliberately suppressed, their existence all but forgotten.

However, Dr. Carter's groundbreaking work has brought this hidden history to light. Through extensive research in archives and interviews with descendants of the Black Family, he has pieced together a vivid and compelling narrative that challenges the dominant historical narrative.
